

OUR **SUGGESTED EXCURSIONS**

IN BERCHTESGADENER LAND

Highlights and Tips
for a Memorable Stay

Our Partners:

WELCOME TO THIS HOLIDAY PARADISE

What brings you ultimate happiness? Maybe it's packing your backpack early in the morning, jumping into your hiking boots and scaling a mountain peak. Or exploring mysterious gorges for hours on end while discovering the wonders of nature with your kids. Perhaps it's enjoying top-class concert music surrounded by breathtaking panoramas. Or is it possibly having time for new ideas and truly pampering yourself?

To explore Berchtesgaden and the Alpine Town Bad Reichenhall, the mountains as well as world-famous sights, can only be done here in Berchtesgadener Land.

We hope you have an enjoyable stay with us!

From mid-May to mid-October
alpine-auskunft@dav-berchtesgaden.de

ⓘ EASY ARRIVAL BY CAR

Take the Autobahn München-Salzburg (A8) from Munich and continue on good secondary roads. Please note: If you are arriving on the A8 from Munich, we suggest you take the Bad Reichenhall exit. Continuing through Austria requires a vignette (toll-road sticker)!

ⓘ FLY TO THE MOUNTAINS

The Salzburg Airport is around 20 km (12.5 miles), the Munich Airport around 170 km (105 miles) away.

ⓘ TRAVEL BY BUS AND TRAIN Train Connections

IC Königssee: Direct connection between Hamburg Altona and Freilassing-Bad Reichenhall-Berchtesgaden. Take the **Westbahn** to Salzburg and change to the Berchtesgadener Land Bahn (BLB) to Bad Reichenhall/Bayerisch Gmain or Berchtesgaden via Freilassing. **Bayern Ticket:** take the Meridian or RB from Munich to Bad Reichenhall/Bayerisch Gmain and Berchtesgaden via Freilassing.

Transportation of Bicycles on the Trains

In the local Berchtesgadener Land trains, the transportation of bicycles is free. Please note: if trains are very crowded, the railway personnel will decide if the bikes can be brought or not.

Kurkarte / Guest Card = Bus Card

With the **Berchtesgaden guest card**, overnight guests in the Watzmann and Königssee region can travel free and environmentally friendly on most bus routes, with a few exceptions of RVO.

Kurkarte / Guest Card = Bus Card

The **Bad Reichenhall guest card** is your eco-conscious free ticket to tourist attractions, hiking centers and more in and around the Alpine Town. Use the city bus and Berchtesgadener Land Bahn Train in Bad Reichenhall/Bayerisch Gmain to get to, e.g., the Old Salt Works, RupertusTherme Spa, Predigtstuhl Cable Car, concerts, hiking centers.

IMPORTANT INFORMATION

Dial-a-Bus Berchtesgaden (RufBus)

Additional service, besides public transportation, for the townships of Berchtesgaden, Bischofswiesen, Ramsau and Schönau a. Königssee.

T +49 8652 964822

Alpine Experience Bus (ALMERlebnisBUS)

Starting at the bus stop Hintersee in the mountaineering village Ramsau and following along the Alpine pastures and huts of the Klausbachatal (End of May until the beginning of October).

almerlebnisbus.com

Teisendorf Municipal Bus (GemeindeBUS Teisendorf)

Takes guests to the desired destinations within the municipal district. It is possible to transport buggies, walking aids or wheelchairs.

NATURE & MOUNTAINS

Lace up your hiking boots and off you go!
For ambitious mountain lovers
as well as leisure hikers.

GORGES, RAVINES AND DAMS

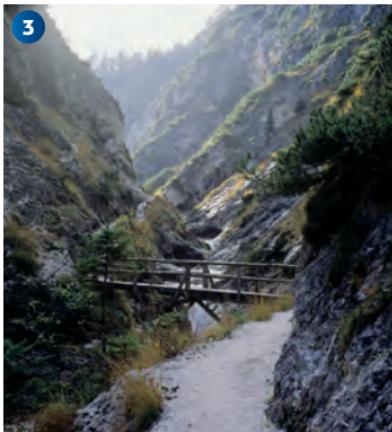

Hikes through Berchtesgadener Land's gorges and ravines offer a fantastic experience that won't easily be forgotten.

Wild and romantic: The **1 Almbachklamm** near Marktschellenberg, with its thunderous waterfalls, is one of the most beautiful gorges in the Bavarian Alps. At its entrance one can admire **2 Germany's oldest marble mill**. Since 1683 chunks of marble are beautifully ground into smooth balls here.

Throughout Berchtesgadener Land, mills and dams can be found, such as the **Röthelbachklause** near Bad Reichenhall – one of the earliest splash dams mentioned in a document – or the **Theresienklause** in the Almbachklamm. These historical monuments tell a story of the economy and technology

3

4

in former times. They made use of the power of water and served as a means for extracting salt, producing stone balls, grinding grains, generating energy or enabling the transportation of wood from hard to access forest areas.

Many mills and dams have meanwhile been lovingly restored by associations and volunteer helpers. They are ideal tourist attractions for young and old alike that still captivate our interest today by their association of technology with nature.

Those who are up for more ravine adventures should explore the Speik Valley and **Speik Stream near Bayerisch Gmain**. Steep trails through the romantic Weissbach Valley, with its deep ravines and numerous waterfalls, lead to the wide streambed of the Speik. **3 Aschauer Gorge and Hiental Dam** can be found nearby, in the neighboring township of Schneizlreuth.

GLACIERS AND ICE

Hikers wishing to explore gorges and ravines will need good footwear. Warm clothes are a further requirement for exploring the **4 Schellenberger ice cave** (1,550 m/5,085 ft) in the Untersberg Mountain, as the descent into Germany's largest ice cave gets colder with every step.
eishoehle.net

The reason why the **5 Blaueis Glacier** still exists despite global warming is thanks to its location on the north face of Hochkalter Mountain. Glacier enthusiasts can stop for refreshments at the **Blaueis hut** (1,680 m/5,512 ft) and continue from there on hikes into a unique glacier world.

5

TAKE YOUR BIKE FOR A SPIN

Numerous biking trails offer a diverse range of tours, for example to Thumsee Lake, around Saalachsee Lake, and the list goes on. Whether you want to explore the world with your kids or are looking for challenging mountain bike tours, such as up to Gotzenalm – the area offers bike fun for everyone.

THE JOYS OF HIKING

Those who prefer strapping on hiking boots can explore Berchtesgadener Land on well-marked trails. Whether half-day or full-day excursions, hiking through valleys or scaling mountain peaks – choose from a variety of hikes suiting your wishes and physical fitness. Multi-day tours on the SalzAlpenSteig or one of the SalzAlpen tours provide another special experience. Are you looking for good company or a knowledgeable mountain guide? Then why not join one of the guided hikes offered throughout the county. We also recommend the Berchtesgaden Alpine National Park's hiking program.

1 DAV CLIMBING CENTER IN THE GANZ MOUNTAINEERING CENTER

The German Alpine Association's (DAV) climbing center in the mountaineering house Ganz in Bischofswiesen provides the ultimate climbing experience in the Berchtesgaden Alps. Climbers will enjoy

A GOLFER'S PARADISE

Experience great golfing on Ober-salzberg Mountain at an elevation of approx. 1,000 meters (3,281 feet)! Here golfers of all levels can enjoy the game in front of a spectacular mountain backdrop. Twenty other golf courses can be found within an hour's drive.

STAY ACTIVE IN BAD REICHENHALL

Bad Reichenhall's local mountains offer many hikes and mountain tours into nature and form a counterpart to the urban flair of the Alpine Town. Bayerisch Gmain is located above Bad Reichenhall: not only the Alpgarten loop, but also the Wald-Idyll trail and SalzAlpen tours lead through an impressive landscape with forests and streams at the foot of the Lattengebirge.

Special tips: Soleleitungsweg (brine pipeline trail) telling the history of salt or the three walking trails in the Alpine Town.

the 2,000 m² (21,528 ft²) of climbing surface as well as the two boulder rooms.

3 ROSSFELD PANORAMIC ROAD

Germany's highest panoramic road takes visitors directly into Berchtesgadener Land's unique mountain world with a view of Salzburg and the Salzach Valley. There are various hiking trails and a magnificent panoramic circular route with benches to rest on as well as info panels. Two mountain restaurants and a snack-bar (including handicapped toilette) provide refreshments. The toll road is passable year-round and, as of February 2018, approved for accessibility by the identification system "Travel for All" that is uniformly defined nationwide. Therefore, you as a guest can independently judge the suitability of the offer for your individual requirements.

*Discounts for many destinations; max. three of one's own (grand-) children up to 14 years are free. Tickets are only valid in local trains, Mon - Fri from 9:00 am, Sat - Sun and public holidays all day; in busses, Mon - Sun from 0:00 - 3:00 am the following day.

Toll station: T +49 8652 2808

Motorcycle 5 €, Bus 60 €

4 THE EAGLE'S NEST

A historic viewpoint high above Berchtesgaden: The Eagle's Nest on top of Mount Kehlstein (1,834 m/6,017 ft) provides a breathtaking panoramic view. The building was completed in 1938 and in 1960 the Bavarian State entrusted it to a foundation. The Eagle's Nest is managed by the tourist region of Berchtesgaden-Königssee and run as a mountain restaurant by private leaseholders. The Eagle's Nest road is closed to private traffic – special busses chauffeur visitors up to a viewing platform from where a 124 meter (407 feet) long tunnel leads to a brass elevator going 124 meters (407 feet) up into the Eagle's Nest.

The Eagle's Nest road or Kehlsteinstrasse is considered to be a unique architectural masterpiece and true feat of engineering: in a single bend the road traverses the tremendous difference in altitude of 700 meters (2297 feet) while crossing the steep northwest side of the Kehlstein Mountain twice. Its construction time is impressive as well: the 6.5-kilometer (4-mile) long road was completed in 1983 after just 13 months of construction.

5 EXPERIENCE THE SALT MINES IN BERCHTESGADEN

Dive into the world of salt in the Berchtesgaden Salt Mines (founded 1517) and enjoy a unique atmosphere deep in the Bavarian Alps. A miners' train will take you 650 meters (2,133 feet) into the mountain itself, where a gigantic salt cathedral with a spectacular miners' slide awaits. 3D animations depicting the mining of salt are presented in an exciting way and the one-hour tour, as well as the boat trip across the underground salt lake, provide an unforgettable experience underground for young and old alike.

Tip: combine with the old salt works in Bad Reichenhall

6 TAKE A BREAK, HAVE A GENTIAN SCHNAPPS

The Grassl distillery warmly invites you to do just that! Besides the well-known Grassl gentian schnapps – distilled in Berchtesgaden for the first time in 1692 – today around 35 different fruit and herbal liqueurs as well as gin specialties are produced here as well. Come and sample the delicious shots and take a guided tour of the distillery. Moreover, a fascinating display of historic equipment from centuries-old distilling traditions are waiting to be discovered. Another highlight is the distillery museum in an authentic, old Alpine chalet (only open during summer).

8 PREDIGTSTUHL CABLE CAR – BUILT TO LAST FOR ETERNITY

The Predigtstuhlbahn in Bad Reichenhall is the world's oldest originally preserved cable car. Since 1928 it has been considered a model for the ideal cable car and the epitome of elegance in ropeway construction. Justifiably, the Predigtstuhlbahn is a protected monument. The 32-meter (105-foot) high monumental supports soaring high into the sky, as well as the top station majestically enthroning the summit, are an expression of the 1920s attitude towards life.

Once you have arrived at the top, you may fancy an extensive hike on stroller-friendly high paths, take a break in the rustic alpine hut at Schlegelmulde or dine in the nostalgic gourmet restaurant. Enjoy a unique ambience by the fireplace or on the sun terrace with a fabulous view of Bad Reichenhall and the surrounding mountains.

9 JENNER CABLE CAR | SCHÖNAU A. KÖNIGSSEE

The new Jenner Cable Car near Lake Königssee offers a nearly silent cable car ride up the Jenner Mountain. Enjoy the fantastic view through the panoramic windows during your ascent. After a short walk to the summit at 1,874 m (6,148 ft), the entire Lake Königssee can be admired down below.

Regardless of whether you crave a hearty meal or a snack, whether halfway up or at the top, you will always be spoiled with culinary delights in the two restaurants "Halbzeit" at the middle station and "Jenneralm" at the mountain station.

In the winter of 2019/2020, the traditional ski area on the Jenner will open its gates with all new ski facilities for the first time. The Jenner caters to every skier with family-friendly as well as demanding carving slopes and a

ski storage at the base station. A modern, unique and unforgettable Alpine experience is provided for everyone. Even handicapped persons, families with strollers or athletes with their mountain bikes and sport kites (paragliders/hang gliders) can catch a ride in the Jennerbahn Cable Car to experience the mountain.

14 WIMBACHKLAMM

The Wimbach Gorge, located at the entrance of a massive high valley and at the foot of Mount Watzmann, is a geologically impressive sight, as well as a picturesque natural monument.

WATER, LAKES & WELLNESS

Refreshing and beneficial,
crystal clear and salty,
smooth as glass and thunderous.

EXPERIENCE ALPINE WATER

Large and imposing in front of a unique mountain backdrop, small and hidden away, icy cold or pleasantly warm: all throughout the Berchtesgadener Land, lakes can be found that are ideal for swimming or located amid idyllic Alpine scenery.

LAKES

Need to escape the heat? In the summertime many lakes and regional outdoor pools invite you to take a cooling dip. Discover small beaches, for example at ❶ **Höglwörther Lake**, which, due to its moor water, maintains a pleasantly warm temperature throughout the summer.

Many Bad Reichenhall residents' lake of choice is ❷ **Thumsee Lake** with its turquoise water, beach and beautiful lawn for sunbathing. The circular route around the lake is equally charming.

❸ **Lake Abtsdorf** near Laufen and the municipality of Saaldorf-Surheim, with its beach, playgrounds and spacious sunbathing areas, is another worthwhile destination – especially for families: here children can splash around for hours, as the lake is one of the warmest in Bavaria.

❹ **Hintersee Lake**, surrounded by gigantic peaks and located in Ramsau at the foot of the Reiter-Alm, has fascinated many landscape artists and poets. Its surrounding is equally enchanting.

FUNTENSEE LAKE

If you are up for a challenging three to four-hour hike, then start at St. Bartholomew and continue up to Funtensee Lake. The mountain lake, located at an elevation of 1,633 m (5,358 ft), is considered Germany's coldest spot but can reach pleasant temperatures in the summertime. The Kärlingerhaus at Funtensee Lake marks the starting point for many hiking tours through the Steinere Meer.

OUTDOOR POOLS

Enjoy a magnificent view of the mountains from the **Marzoll outdoor pool** or dive into Schönau's **Schornbad** with 900 m² (2,953 ft²) of water space, a delight for young and old alike. **Marktschellenberg** also attracts visitors with a well-maintained outdoor pool, as do **Freilassing**, **Teisendorf** and **Anger**.

Aschauerweiher Bad or "Aschi", Germany's largest natural swimming pool, combines a unique blend of outdoor pool feeling with magnificent mountain vistas that include Mount Watzmann and Hoher Göll.

15 A NATURAL KINGDOM

Lake Königssee, with its emerald green color and nestled at the foot of the imposing eastern wall of Mount Watzmann in the heart of the Berchtesgaden National Park, is one of nature's true masterpieces.

The greatest luxury in these fast-paced times is silence. As soon as you board one of the attractive electric passenger boats, all the noise, hustle and bustle is left behind. During the crossing to St. Bartholomew, the boatman plays his trumpet to lure out the world-famous Königssee echo from the steep rock face.

If the weather is nice: take the boat over the lake before 10:30 and return in the early afternoon. This reduces the waiting time.

Child fares up to 17 years

16 LAKE CHIEMSEE – TOUR AROUND THE ISLANDS AND VISIT THE ROYAL PALACE

All year round, boats pick up guests at the ports of Prien and Gstadt and take them to the Frauen and Herren Islands; in the summertime stops are made at Seebruck, Chieming, Übersee and Bernau as well. The islands present two individually unique attractions in the Chiemgau area. While the Herren Island is primarily known for King Ludwig II's royal palace, Frauen Island is truly an insider's tip: a small fishing village with an excellent culinary offer and the Benedictine Abbey make it a unique jewel.

Simply sit back and enjoy the view of the "Bavarian Sea" and the Chiemgau Alps.

17 ANGER TOWNSHIP

Höglwörther Lake. The island housing the former Höglwörth Monastery together with Höglwörth Lake form a romantic gem in the Rupertiwinkel area. Tip: hike around the lake or relax on the lovely lawn that includes a kiosk.

Staufenbad Aufham-Anger. The Staufenbad pool, newly renovated in 2019, is ideal for families and now offers modern changing as well as sanitary facilities. In addition to an extensive lawn, the heated outdoor pool area offers a sports and a non-swimmer pool with a wide wavy slide, a large space for small children, as well as different types of playgrounds. A snack-bar with a beautiful terrace provides refreshments.

**20 SPA & FAMILY RESORT
RUPERTUSTHERME BAD REICHENHALL**

The RupertusTherme receives its greatest treasure from its natural Alpine surroundings: pure Alpine salt. It has been safeguarded deep inside the mountains for 250 million years and occurs naturally in Bad Reichenhall in liquid form as Alpine brine. This brine is piped directly from the salt works into the RupertusTherme thermal baths, where it is distributed to the active and relaxation pools, as well as the steam baths.

The large glass windows of Bavaria's recreational health spa allow a clear view of the surrounding mountains of the Berchtesgadener Land, making the day at this thermal spa a truly Alpine experience.

The separate sports and family area guarantees fun for all ages. It includes an area for small children, consisting of a pool with water depths of up to 40 centimeters (15.7 inches), and different attractions, such as waterfalls, fountains, a toddler slide and a main family pool with a water vortex, as well as a 12 m (39ft) long wavy slide. The main allure is a 120 m (394 ft) long tire slide – a pleasure for the entire family!

SNOW & WINTER FUN

A time when nature rests and landscapes
are clad beautifully in white.

WINTER DELIGHTS

Berchtesgadener Land offers winter fun for hikers, skiers, snowboarders, sledders and all snow-lovers.

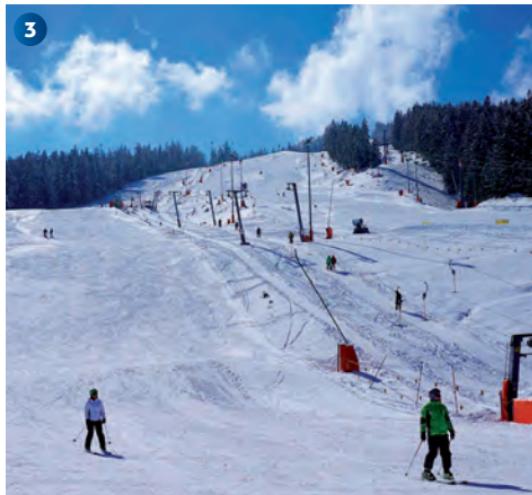

SKIING, SLEDDING AND FUN IN THE SNOW

The six ski areas of Berchtesgadener Land can easily be reached in little time by car or with the RVO busses. More than 60 kilometers (37 miles) of attractive runs at altitudes between 600 (1,968) and 1,800 meters (5,905 feet) are waiting to be enjoyed by skiers and snowboarders.

The **① Jenner ski area near Lake Königssee** promises truly majestic down-hill pleasures for beginners and advanced skiers. The new 10-seater gondola lift delivers one comfortably to the mountain station, where eight and a half kilometers (5.3 miles) of guaranteed snowy, groomed slopes await. A dream for all skiers!

Family ski areas include **Obersalzberg** with five lifts and snow-making facilities

as well as a newly built children's play area, **2 Hoch-schwarzeck** with a chairlift, two T-bar lifts, a practice lift and a snow tubing lift, and **Rossfeld** with three T-bar lifts and a practice lift. The **Zinken ski area (in Austria)** is located next door with a chair lift, two T-bar lifts and a practice lift.

3 Götschen offers a chairlift and three T-bar lifts – night skiing is available here every Friday.

The sled runs **4 Hirscheckblitz** in Ramsau and **Obersalzberg** in Berchtesgaden are both equipped with lifts. Nearly every township offers natural sled runs for winter lovers to zip through the snow.

How about trying out the artificially **frozen bobsled & luge ice track** in the LOTTO Bayern Eisarena at Lake Königssee? Thrill-seekers should not miss out on the visitor sledding.

Do you favor less speedy descents or prefer working on your stamina instead? No problem, we've got you covered:

Over 100 kilometers (62 miles) of groomed trails make for the perfect cross-country skiing experience. The **5 cross-country center Aschauer-weiher** in Bischofswiesen provides over 20 kilometers (12.4 miles) of well-groomed trails against a backdrop of the world-famous Watzmann. For the most part, the trails are made for both classic and skating ski-style. Thanks to snowmaking facilities, snow is almost always guaranteed. Night skiing is also available until 9:00 pm.

Other well-groomed trails, such as in **Bad Reichenhall**, **Bayerisch Gmain**, **Rupertiwinkel**, **6 Piding** and in the townships of **Berchtesgaden**, **Marktschellenberg** and **Schönau a. Königssee**, lead across sunny meadows and through snow-covered forests.

7

The high-altitude trail in Ramsau/Hochschwarzeck is especially attractive in spring and can make for an unforgettable cross-country skiing experience in bright sunshine at an elevation of 1,100 meters (3,609 feet).

Ice-skating lovers may try out the ice rink in Berchtesgaden or, weather permitting, glide across one of the many idyllic natural lakes, such as **7 Thumsee**. There or at the **8 recreational facility Aschauerweiher** one could also partake in a game of curling and make new acquaintances.

8

WINTER HIKING

Winter hiking in a winter wonderland: crystal clear air, bright blue skies and gleaming white peaks make trudging across valleys and mountains and through untouched nature away from ski slopes and cross-country ski trails a fantastic experience – either with snowshoes, on guided hikes or on your own. The trail network encompasses over 200 km (124 mi)!

Before your hike, inquire about the weather conditions, the exact route, along with its length and difficulty, and please stay on the designated paths for your own safety. You will find a small selection of hiking suggestions in our winter hiking trail map or at bglt.de

SNOWSHOEING

Would you like to venture further into untouched Alpine winter wonderland? Then you may want to try a special kind of winter hike: snowshoeing. Have a look at our winter hiking trail map with suggestions for snowshoeing tours or join one of the guided tours of various providers.

SLEIGH RIDES

Horse-drawn sleighs seating eight or twelve passengers shuttle guests between the National Park Information Center Hintersee and the game feeding station. The journey is offered in two segments, each lasting 30 minutes.

WINTER SPORTS AT THE HIGHEST LEVEL – EVEN IN SUMMER

The record champions and best German ice hockey league, the EHC Eisbären Berlin, not only enjoy excellent training opportunities in Berchtesgadener Land, but also its numerous options for excursions.

In summer 2019, to prepare for the season, the Eisbären Berlin team completed a classic summer training camp for the first time in 16 years and couldn't have chosen a better spot! The team stayed in the Kempinski Hotel Berchtesgaden together with their trainers, supervisors and club management. Training took

place in the Berchtesgaden ice rink as well as in the German Bobsleigh and Luge Federation's gym. In addition to a Bavarian evening at the Windbeutelbaron, teambuilding included a golf tournament in the Berchtesgaden golf club, an excursion to the summit of the Bad Reichenhaller Predigtstuhl, a visit to the Berchtesgadener Land dairy and a bike tour to the Beckhaus. What better place to combine training, enjoyment and unforgettable experiences than in Berchtesgadener Land?

Check out the video diary of the training camp and further information at eisbaeren.de/trainingslager

RELAX & ENJOY

**Inviting, hearty & delicious: eateries and restaurants
on mountains and in valleys bid you welcome.**

① »SALIN – THE TASTE I'M TALKING ABOUT.«

MOUTH-WATERINGLY GOOD

Holidays in Bavaria hold a promise of dumplings, roasts, pretzels and beer. Feast your heart out in cozy Alpine inns, cheery beer gardens and rustic mountain huts in and around Berchtesgaden, in Bad Reichenhall and Rupertiwinkel: enjoy cold-cut salad or cheese dumplings, roast pork or trout, liver dumplings or veal lung, traditional cheese noodles or Bavarian cabbage, Zwetschgendatschi (plum cake) or Kaiserschmarrn (cut-up Bavarian pancake). Many innkeepers value regional purchasing. Especially beef and lamb often come from local farms, and milk and cheese products from the Berchtesgadener Land dairy. The four Berchtesgadener Land breweries provide the perfect cold accompaniment and always keep on surprising with new beer creations.

By the way: if you want to find out more about our regional producers and try out delicious recipes at home, check out Sophie's food blog at sophiekocht.de.

Due to Bavaria's geographic location, its gastronomic offer also attracts with culinary delights from across the border and not only Austrian ones. In addition to the traditional Bavarian cuisine, one can enjoy Mediterranean, vegetarian or exotic specialties. Even mountain inns surprise with fiery curries, vegetarian couscous variations or an easy burger. The perfect ambience is found for each taste, from modern bars to rustic farmhouse living rooms to elegant restaurants.

BERCHTESGADENER LAND DAIRY SHOP

The Berchtesgadener Land Dairy operates its own dairy shop directly at the production site in Piding. In addition to the popular milk products, such as yoghurt, milk and butter, regional delicat-

essen specialties as well as a selected fair-trade assortment can be purchased. The shop also offers lovingly packed gift baskets for special occasions and souvenirs in the form of accessories for kitchen, home, sport and recreation.

CULTURE & SIGHTS

Enjoy an evening event in the Alpine Town of Bad Reichenhall. High-quality cultural experiences are offered here almost every day.

CULTURE AND HISTORY

1

2

1 BERCHTESGADEN

Discovering and experiencing tradition: Berchtesgaden already had been receiving prominent guests before the term "holiday" was even invented – Bavaria's kings, artists and noblemen preferred this town over others. Fortunately, you no longer have to be an aristocrat to enjoy the place!

The town invites you to discover interesting sights such as the historic Rococo town center with its town houses, monastery church and royal palace. Stroll around leisurely, visit one of the cozy cafés and have fun browsing through the charming shops. During the day, discover the heart of Berchtesgaden through an interesting guided tour. Those who want to experience "great moments" of history in Berchtesgaden have the opportunity to accompany the night watchman on a tour through the historically interesting old town.

berchtesgaden.de

2 BAD REICHENHALL

A city of diversity: What town of 18,000 souls can boast having a philharmonic orchestra? Where has salt been produced continuously since 696? Which city ensures vitality – effortlessly? Who pays homage to creativity with one of the largest art academies in Europe? Where else can you tie your hiking shoes in the pedestrian zone and head off to climb the next mountain? The answer in all cases is – BAD REICHENHALL.

In addition to exclusive shopping experiences, Bad Reichenhall still stands for vitality and healthy well-being. Around 70 fountains can be found here, some even containing healthy Alpine brine. Stroll through the royal spa garden and enjoy the salty sea breeze that blows from the outdoor brine inhalation facility.

bad-reichenhall.de

RUPERTIWINKEL

In the southeastern part of Bavaria, between Lake Chiemsee, Lake Königssee and Salzburg – the city of Mozart – lies the Rupertiwinkel in the district of Berchtesgadener Land. It was not until 1810 that the region was added to the kingdom of Bavaria, prior having belonged to Salzburg for over one millennium. Its name came from Saint Rupertus, Salzburg's first bishop. The region possesses a rural landscape with pre-Alpine character and has preserved ancient traditions while keeping them alive at Christian festivals and folklore events. The Berchtesgadener Land and Rupertiwinkel make up Germany's only Alpine UNESCO biosphere region. This globally

valid award takes humans, as the most important landscape designers, up on their promise to preserve the unique and species-rich landscape as a natural and cultural heritage. These include the Haarmoos Nature Reserve's large heather fields with their bird watching stations, the warm Abtsdorfer moor lakes and Höglwörther Lake, the Saalachau Nature Reserve and the Piding Bienenweg Path. Also, the regional products, cultivated in an environmentally friendly way are offered directly at the farms. Historical marketplaces, churches, monasteries and monuments bear witness to the region's rich past, which was already settled by the Romans.

CASTLES, CHURCHES & MONASTERIES

Treasures await at every turn.

CASTLES AND FORTS

The history of Bavaria's royal family is clearly reflected in **1 Berchtesgaden's royal palace**. Once the seat of a medieval monastery, it was passed over to the Bavarian crown following its secularization.

Gruttenstein Castle is perched high above the salt springs of Bad Reichenhall. It was built in the 12th century as a means of protecting the city and its springs. The castle opens its gates for events such as the advent market.

Where **2 Marzoll Castle** stands today used to mark the location of a Roman fort. Around the year 1500, the former fortifications near Bad Reichenhall were

extended into a castle. It is not open to the public.

In the vicinity of Bad Reichenhall, the remains of a residential building, **castle chapel** and keep give an indicator of the Karlstein fortifications' former size.

3

4

CHURCHES AND MONASTERIES

Churches and monasteries form an integral part of Bavaria's history. The Rupertiwinkel area is rich in scenic beauty, architecture and culture.

Höglwörth Monastery in the district of Aufham-Anger formerly belonged to Augustinian monks and was founded around 1125.

Legend has it that **St. Zeno Minster** in Bad Reichenhall was founded by Charlemagne. The largest basilica of southern Bavaria houses a variety of art treasures. Cloister tours take place once a month from May to October at 10:30 am.

The **pilgrimage church Sankt Pankraz** in Karlstein, as well as the **parish church St. Jakobus** in Aufham, are also worth a visit.

The late Gothic nave of the **Parish Church of the Assumption** in Anger was built in 1445/50.

Vachenlueg Chapel has a vivid story to tell. In 1824 the castle collapsed and, with it, the castle chapel, however, the reliquaries and Madonna statue remained undamaged. In 1848 the church was rebuilt.

The originally Romanesque columned **1 basilica of Berchtesgaden's** 12th-century monastery church was gradually rebuilt in gothic style.

The **3 pilgrimage church Maria Gern** is located north of Berchtesgaden's center and is often referred to as the most beautiful church in the Berchtesgadener Land. It possesses an elliptical floor plan. Noteworthy: image of the Virgin Mary of 1666.

The **4 monastery church of Laufen** was built between 1330 and 1338 in the place of a Romanesque basilica. It is the oldest Gothic 'hall church' in southern Germany and houses three paintings by

famous artist Johann Michael Rottmayr. Born in Laufen in 1654, he is considered a genius of the baroque style.

The small **pilgrimage church Maria Hilf** in Bischofswiesen-Loipl with its Mount of Olives chapel was built in 1799. In 1824, the simple little church and its nave were enhanced with a vestibule and turret above it, which lend the church its distinct appearance. The baroque interior of the **5 Pilgrimage Church of the Visitation in Ettenberg** is similarly charming.

The **pilgrimage church of Maria at Kunterweg** in Ramsau is a late Rococo jewel and was consecrated in 1733.

The **6 Ramsau parish church**, built in 1512, was frequented by the poet and curate Josef Mohr, author of the Christmas carol text "Silent Night, Holy Night". The church is the oldest architectural monument in this picturesque village. Striking and visible from afar: the tower of **7 St. Nicholas v. d. Flüe Church** in Bayerisch Gmain.

21 PASSIONATELY BEAUTIFUL CERAMICS AND GARDENS

Unique and beautiful – finest garden ceramics can be admired in the garden artist's dream haven. THE ROYAL SPA GARDENS AND BAD REICHENHALL'S PHILHARMONIC ORCHESTRA

The spa gardens in the heart of Bad Reichenhall have existed since 1868. The royal Bavarian park director Carl von Effner, who designed the gardens of Herrenchiemsee Palace for King Ludwig II, among others, was commissioned to create the over 40,000 m² (10-acre) park. In addition to native plants, exotic plants from Asia and North America flourish here, as well as 42 species of trees. The centerpiece of the garden is the large open-air salt inhalation facility, with magnificent buildings surrounding this thriving oasis in the heart of the spa town. The Royal Spa House, concert pavilion and foyer with taps for brine sampling contribute to the park's beauty with their elegant architecture. There is a scent of salt and flowers in the air along with a deep sense of wellbeing that the garden provides.

A garden of healing – experience it with all your senses

In the summertime, even from a distance, you can feel the refreshing breeze coming from the open-air salt inhalation facility. The healthy saline air can be inhaled throughout most of the spa gardens, while sitting comfortably in a deckchair or by the bubbling brine fountain and listening to the sounds of the spa concert. The AlpenSole Kneipp brine pool is refreshing on hot summer days.

Botanical Beauty

The Royal Spa Gardens are a protected monument and frequently replanted; however, the tree stand is left as in former times. A major showpiece is the huge, lush "Dutch flower bed" in front of the concert pavilion, which is colorfully laid out from spring to late autumn.
bad-reichenhall.de

BAD REICHENHALL PHILHARMONIC ORCHESTRA & ENSEMBLES

The Bad Reichenhall Philharmonic Orchestra, with its 44 musicians, is Germany's only symphonic orchestra that upholds the tradition of "spa music" all year round. The concerts take place from Tuesday to Sunday and, in summer, outdoors in the spa park.

The orchestra gives over 350 concerts in Bad Reichenhall and southeastern Bavaria annually, with a multifaceted variety of ensembles, such as philharmonic concerts, matinées, salon music, requested programs and symphonic concerts, as well as chamber music evenings.

bad-reichenhaller-philharmoniker.de

OUR CULTURAL DELIGHTS – UNWIND AND ENJOY LOCAL DELI- CACIES IN VERY SPECIAL PLACES

Guests and locals appreciate the few evenings when selected places in Berchtesgaden can be experienced far from the hustle and bustle of everyday life. Once the day visitors have left, traverse Lake Königssee to St. Bartholomew via boat or venture up to the 1,834 m (6,017 ft) high Eagle's Nest by bus. The breathtaking atmosphere amidst the Berchtesgaden mountains offers unforgettable moments. These evenings are accompanied by a festive menu, excellent musicians, magnificent service, and are a real gift – to yourself or for family and dear friends. Don't miss out on experiencing the close connection between tradition and culture here in Berchtesgaden.

STROLLING & SHOPPING

Berchtesgadener Land's town centers and pedestrian zones offer a great selection of attractive shops and restaurants.

FREILASSING: TOWN OF TRAINS

This young city is centrally and conveniently located amidst the picturesque mountains of Upper Bavaria and just outside the gates of the trade fair and world cultural city of Salzburg.

A diverse and active stay is guaranteed for the entire family. The barrier-free sports and recreational facility Badylon with its modern indoor pool, climbing and bouldering wall provided by the German Alpine Association and much more, make up a true paradise for young and old sports enthusiasts alike. Opening in summer 2020, a multigeneration facility for roller sports will offer everything one's heart desires. In the summer months, the recreational offer includes an outdoor pool.

The pedestrian zone in the city center is a true shopping paradise: an eclectic choice of specialty stores invites you to browse, shop and take your time. Four "Shopping Sundays" offer delights for the entire family: the automobile show, the Children's and Youth Day, the traditional Krampus parade and the village fair attract thousands of visitors to the town each year.

Those interested in culture also get their money's worth: experience history in the city museum and enjoy musical events in Freilassing's historic train world, which, in cooperation with the Deutsches Museum Verkehrszentrum, makes railway technology from 150 years tangible for the whole family. In addition, Freilassing is the ideal starting point for many activities and excursions in the region.

TEISENDORF – ENJOY THE BAVARIAN ZEST FOR LIFE ...

Are you a fan of Bavarian beer? Then why not explore Teisendorf's local private brewery Wieninger that brews beer from fresh spring water according to the Bavarian tradition. Guided tours are offered Wednesdays at 11:00 am.

In front of a magnificent mountain backdrop, biking and hiking routes lead through Berchtesgadener Land's nature paradise. "Nordic Walkers" can keep fit on well-developed walking trails and hikers find joy on one of the many exciting and adventurous hikes, such as to Stoisser Alm.

Go on a leisure shopping spree in the historic market street and relax in one of the restaurants or cafés. Owner-run shops and eateries alternate behind lovingly preserved historic facades and offer visitors a unique original townscape.

Clean lakes and the idyllic forest pool in Teisendorf provide cool refreshment in hot summer weather.

Alpine Pearls is a designation for 23 selected Alpine holiday destinations, characterized by a shared promise of quality. Here you can combine unforgettable holiday pleasures with nature and climate-friendly means of transportation. In addition, Alpine Pearls promotes regional craftsmanship and cuisine, and safeguards traditional art as well as culture.

ALPINE PEARL BERCHTESGA-DEN: A FESTIVAL OF NATURE

The heart of Berchtesgaden's landscape is its National Park, so it goes without saying that environmentally friendly transportation is an important theme here. "Maintaining the good" is a guiding principle that also applies to living tradition, traditional craftsmanship and regional cuisine. Visit the Berchtesgadener War, a special shop selling handmade, artfully painted woodchip boxes and roughly carved, colorful children's toys. Not far away from this crafts store, two Lederhosen makers, wood carvers and other craftspeople have settled in the castle area and market square.

ALPINE PEARL BAD REICHENHALL – OUT AND ABOUT IN THE ALPINE CITY

The very special blend of urban flair, beneficial brine or salt treatment and high cultural standards – all the while surrounded by magnificent mountains – is what draws people to Bad Reichenhall. Leave your car behind and use comfortable, environmentally friendly means of transportation, available all year round. As a result, the particularly allergen-low, clean air and recuperative tranquility of the Alpine town are preserved. Vacation with a better conscience.

JENNERBAHN

The new **Jennerbahn** Cable Car whisks guests up to the mountain station (1,800 m/5905 ft) in spacious, fully glazed 10-person cabins – almost noiselessly, energy-efficiently and barrier-free. Soar high above Schönau am Königssee and hike the top of the Jenner or the Berchtesgaden National Park. Two restaurants at the middle and mountain station, new lifts for skiers, as well as a ski storage at the valley station perfectly complete the year-round experience.

Berchtesgadener Land

Origin, sustainability and fairness are the three cornerstones of the **Berchtesgadener Land Dairy**. This is partly why it was granted the German Sustainability Award 2019 in the category "medium-sized companies". Since its founding in 1927, the cooperative from Piding has been entirely owned by its farmers – today there are approximately 1,700, whose farms can be found in the Alpine region between Watzmann and Zugspitze. Their milk specialties are not only delicious natural products, but also an assurance of their provenance and region.

The **Predigtstuhl Cable Car** in Bad Reichenhall is also affectionately referred to as the Grande Dame of the Alps. It is the world's oldest preserved large cabin cable car and therefore stands under protection. It was built in 1927/28 and since then has reliably delivered its guests to the Predigtstuhl, one of the most beautiful mountains to explore in the Alps and situated high above Bad Reichenhall.

As the oldest gentian and mountain distillery in Germany, the **Brennerei Grassl** is characterized by its ancestral tradition: since the beginning of the 17th century, it has possessed the sole right to dig for the protected gentian roots in the Berchtesgaden National Park. Considerable work and effort goes into the making – from processing the roots to the distillation of the gentian schnapps, which matures in ash wood barrels from three to seven years.
